SAIRA KHAN

Digital Health & Technology | Front-End Development | AI Solutions
Guelph, ON | 647-989-5426 | imamsaira@hotmail.com | sk-portfolio-nine.vercel.app

SUMMARY

Final-year Honours Digital Health student (Mohawk College, 2027) with skills across software development, systems analysis and health informatics. Builds responsive web and mobile interfaces with JavaScript, React, Next.js and React Native; turns user needs into requirements, Figma prototypes and documented solution designs; and applies software QA and testing practices. Project experience in FHIR, HL7 and DICOM interoperability, PHIPA/HIPAA privacy, telehealth and clinical workflow redesign, including leading a student team that digitized a hospital's paper-based emergency surgery booking process. UI/UX Design and IBM Enterprise Design Thinking certified. Brings eight years of client-facing experience in regulated Canadian banking, including training colleagues on new digital platforms.

SKILLS

Software & Front-End Development: JavaScript, HTML, CSS, React, Next.js, React Native, Java, C#, SQL, Git, Vercel, responsive web design, component-based UI
Systems Analysis & Design: Requirements gathering, solution design, use cases, UML activity diagrams, system context models, workflow redesign, technical documentation
Health Informatics & Interoperability: FHIR, HL7, DICOM/PACS, health information exchange, telehealth, remote patient monitoring, health enterprise applications
Testing & Quality: Unit testing, integration testing, software QA, debugging, defect tracking
Privacy, Security & Compliance: PHIPA, HIPAA, patient safety and risk management, TCPS 2 research ethics
UI/UX & Design: Figma, wireframing, prototyping, user-centred design, design thinking
Data & Project Delivery: Power BI, Tableau, statistics, Agile, Jira, ServiceNow, project planning, risk assessment, change management
AI & Automation: Microsoft Copilot Studio, Microsoft 365 Copilot, AI agents, Microsoft Foundry, OpenAI, Claude

EDUCATION

Honours Bachelor of Digital Health | Mohawk College, Ontario **Expected 2027**
Relevant coursework: Health Architectures, Standards & Interoperability; Health Enterprise Application Development; Telehealth & Remote Patient Monitoring; Health Privacy Administration; Patient Safety & Risk Management; Software QA & Testing; Change Management

DIGITAL HEALTH & TECHNOLOGY PROJECTS

Emergency OR Surgical Booking & Prioritization System | Brant hospital project **Student Team Lead**
- Led a student team redesigning a paper-based emergency surgical booking process that relied on pink surgical slips filled out by physicians and residents.
- Designed a digital booking and prioritization workflow with a shared dashboard giving nursing, diagnostic imaging and other departments visibility into case status, urgency and surgical priority.

EMS Location Finder | Mohawk College
- Built a React Native mobile app with an interactive map interface showing EMS stations and incident information using geolocation data.

Personal Portfolio Website | saira-portfolio-nine.vercel.app
- Designed, built and deployed a personal portfolio website on Vercel to showcase development and design projects.

Medication Adherence System | Mohawk College
- Designed a solution covering medication scheduling, reminders, adherence monitoring and healthcare-provider workflows.
- Produced the full analysis package: requirements, use cases, UML activity diagrams, system context model, project plan and risk assessment.

VitaMind – Student Mental Health Support App | Mohawk College
- Translated user needs into an interactive Figma prototype for mood logging, trend tracking and access to support resources, including college-account sign-in and a trusted-contact alert.

PROFESSIONAL EXPERIENCE

Financial Advisor | Royal Bank of Canada, Georgetown, ON **Apr 2019 – Dec 2021**

- Grew revenue 20% through client relationship management with personal and business clients; shared effective practices with fellow advisors.
- Trained colleagues on new products and digital platforms.

Financial Advisor | Scotiabank, Oakville & Guelph, ON **May 2017 – Apr 2019**

- Grew revenue 10% through cross-selling.
- Prepared client reports using analytical tools to support needs-based financial advice.

Banking, Accounting & Retail Roles | CIBC, Microline Inc., Jean Express **2008 – 2015**

- **CIBC:** Handled about 120 client calls per shift against a 60-call target.
- **Microline Inc.:** Automated invoicing and reduced costs 12%.
- **Jean Express:** Grew store revenue 18%.

CERTIFICATIONS

- TCPS 2: CORE-2022 Course on Research Ethics, Panel on Research Ethics (2026)
- UI/UX Design Certificate; Enterprise Design Thinking Practitioner and Co-Creator – IBM
- Financial Planning II (2023); Professional Financial Services Advisor, PFSA (2019); Canadian Securities Course, CSC (2015)
